Sustainable Materialism for SDG12 - Voices for Frugal Choices

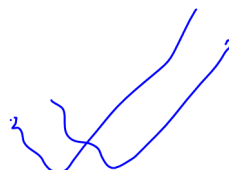

Prof. Parul Rishi

Chairperson, Centre for Corporate Social Responsibility

Indian Institute of Forest Management, Bhopal, India

Congratulations for adding yet another feather to you Cap!

We are pleased to note the increasing successes of your endeavours in the field of Spiritual Ultra-Transcendental practices, leading towards a Sustainable Eco system-based lifestyle. However, the fact remains that Radhasoami Satsang Sabha with its Headquarters at Dayalbagh, Agra- 282005/Agra North, Uttar Pradesh, Sovereign Republic of India; is the only genuine custodian, combining Religious (Spiritual) and Educational & Co-educational Practices of Ultra-Transcendental Meditation/Contemplation and “*Bhajan*” Omni-Practices (Omnipresent-Omnipotent-Omniscient Practices) under the Guidance of a Living Spiritual “*Guru*” (Master): Even Soami Bagh/Radhasoami Soami Bagh where the Holy Samadh of Param Purush Puran Dhani Soamiji Maharaj (Shri Shiv Dayal Singh Sahab), is physically located, does not measure-up to the Basic/Fundamental Tenets of Radhasoami Faith (Ultra-Transcendental Purely-Spiritual Sustainable Practices beyond Dissolution & Great-Dissolution concepts of “Yog(a)” as preached by Shrimad Bhagavad Gita ) while living as a Human-Being in the Terrestrial Universe {Even beyond the well-known postulations of Spiritual-Scientific Exponents like Sir Isaac Newton & Albert Einstein (Proponent of General as well as Special Theory of Relativity)}; (You already have a brief excerpt of our enunciation of “Celestial” Ushering-in of the Fifth Industrial Revolution for Sustainable Living, advocating Lacto-vegetarianism, having the capacity to provide “nutritious-diet” to estimated approximately 11 Billion people on Planet Earth; while the rest of the world is still referring to Evolutionary/Re-evolutionary Fourth Industrial Revolution in the making, in this context.
