

Ambrosial Discourse of Most Revered Gracious Huzur
Prof. Prem Saran Satsangi Sahab
Arising from His Felicitation
At IIT BHU for Eminent Alumni Awards Ceremony
Held On 13th February, 2021 in VIRTUOUS “Virtual Reality Mode”

I wish-well all the National and International audience among the In-state Institutions which have shaped my destiny since my birth on 9th March, 1937 until today which is 13th February, 2021. There have been many challenges. However, none so intense as the Novel COVID-19 Pandemic which has been raging all over the planet earth and for that matter the entire space time of creation. However, given the “unflinching” support of the Supreme Being and HIS Steering Intuitive-“Aura”, Innovative-“Halo” and Inspirational-“Tube-Flashes” for overcoming crisis and turning them into opportunities we have no words or gestures except once again to submit ourselves to the Golden Mean Path to Devotion i.e., *Bhakti Marg* which ensures the Grandest of the entire destiny of the creation and a place for all sub-atomic particles of the finest nature which serve as “point-sized duals” which in the language of Quantum Mechanics is described as both the varied displays of the Ultra-Transcendental Meditation Prescribed by the Supreme Being to ensure Final Blissful Trinity in conjunction with the Upper-most Hierarchy Trinity of “Supremely Multi-valent” *Nij Dham* as a monolith of Ever-Blissfulness and the promise to cause Ever-evolving Trinity Status of those who at the beginning were at the Nether-pole which would finally be having no “denizens” left there as is the promised Grace and Mercy by Supreme Creator at the top of the Trinity in HIS **Radhasoami Nij Dham** along with Agam and Alakh Lokas further followed by Anami, Satlok and Bhavargupha in the Grand-division of Purely Spiritual domain itself while similarly evolving phases continue in the middle-level of Trinity of

Grand-division of Mind. No doubt the evolutionary phase in the Grand-division of Mind as a Triplet with Mansarovar as the promised land of access beyond Mahasunn followed by Sunn and Trikuti with the last one of the Grand Division of Matter (i.e., Maya) where initially at the Nether-pole the spirits were in an insomnabulant state of deep sleep and had already been awakened with avowed promise of leaving no “denizens” at the Nether-pole eventually. That’s the message of cheer, peace and ever blissfulness. May you all prosper throughout this course of creation reaching finally your destined promised land of electro-dynamic equilibrium at the top most level of Triplet (Trinity) with the Supreme Master Himself as the Lord-God of Consciousness.

Thank you.
