to support its activities during the year?

#### 12. Significant contributions made by IQAC during the current year(maximum five bullets)

□ The IQAC undertook a quality initiative accomplishing the EOMS ISO 21001:2018 Quality Manual Implementation from 201920 session. Previously The Institute IQAC planned, organized and executed the necessary steps that included the preparation of detailed quality manuals, identification of key performance indicators and mapping the various processes across the entire functioning of the Institute, which finally led to the successful award of the ISO 9001:2008 and ISO 9001:2015 certifications in 2015 and 2017 respectively. 
ISO Internal Quality Audits of All Administrative, finance, Examination and All Faculties Includes Arts, Commerce, Education, Engineering and Social Science. 

The Internal Quality Assurance Cell (IQAC) was actively involved in organizing programmes, with the view of developing and enhancing quality the Institution. The programs were: The programme was National level Online Workshop for "Enhancing Research Communication Skills through ScienceDirect and Mendeley" with Elsevier held on May 3rd, 2020. 🗆 Providing inputs for best practices in administration for efficient resource utilization and better services to students and staff. 
Providing inputs for Academic and Administrative Audit and analysis of results for improvement in areas found weak. 
Process Performance Conformity 
New programmes introduced and planned to introduce. 

All the staff members are encouraged to attend seminars, workshops, conferences etc. so faculty attended state level, national level workshops, conferences and seminars during this academic year. 

The IQAC led efforts to the successful implementation of modern technology in the Institute's administrative functioning through ICT and alternative sources of energy, especially enhancement of solar power by 140 kW in the last five years. Automation of admission, financial and examination processes, up gradation of Wifi and LAN facilities, have significantly contributed to an enhanced quality of teachinglearning experience.

#### Feedback Obtained

The variety of elements for continuous assessment and feedback mechanisms in DEI enable effective direct and indirect monitoring and measurement of outcomes and appropriately identify and address gaps. The learning outcomes are also reviewed regularly by individual Teachers, Class Committees, Proctorial Boards, Alumni Meets, External Examiners and External Experts in the Departmental and Faculty Board of Studies Meetings, Academic and Administrative Audit Committee (AAAC), IQAC and the Advisory Committee on Education. Feedback collected, analysed and action taken and feedback available on website https://www.dei.ac.in/dei/index.php?optioncom\_contentviewarticleid868Itemid410 , https://www.dei.ac.in/dei/index.php?optioncom\_contentviewcategorylayoutblogid51Itemid326

2.3.2 - Students mentoring system available in the institution? Give details. (maximum 500 words)

Yes, students mentoring system is available in the institution. To facilitate closer contact between students and teachers, to oversee the regular progress of the students, and to help students in general, all the students in the Institute are divided into groups of 15 to 20 each and placed under a member of the teaching staff, called the Proctor. The Proctors meet periodically to sort out the various issues and problems of the students in a free, frank, and cordial manner. Each Faculty has a Proctorial Board consisting of Faculty Proctor, Class Proctors, and Class Captains. Besides, there are many other avenues for mentoring including the Training and Placement Cell with coordinators in each faculty, career counselling in core courses dealing with

general awareness, the industry-institute partnership cell and hostel wardens. All programmes have class committees for each course that comprises of student members representing meritorious as well as weak students, along with faculty members nominated by the Head of the Department, other than the course teacher. The Class Committees provide counselling and feedback on all aspects of the programme and respective course. The Psychology Department provides free counselling services through its Counselling Cell. The Alumni Placement Assistance Cell also mentor students in professional courses and internships, based on their academic background, career interests and industry/sector preference. The Entrepreneurship and Incubation Cell and the Business Advisory Clinic managed by the Management faculty provide free counselling to students for entrepreneurship to start various MSMEs. Number of students enrolled in the institution Number of fulltime teachers Mentor : Mentee Ratio 8331 302 1:28 2.4 - Teacher Profile and Quality 2.4.1 - Number of full time teachers appointed during the year No. of filled Positions filled during the current No. of faculty with No. of sanctioned Vacant positions positions positions year Ph.D 328 251 77 51 206 2.4.2 - Honours and recognition received by teachers (received awards, recognition, fellowships at State, National, International level from Government, recognised bodies during the year ) Name of full time teachers Year of receiving awards from state Name of the award, fellowship, received from Government or Designation Award level, national level, recognized bodies international level Dr. Richa Verma, Dept of Assistant Invited for lecture by Institute of Home 2019 Home Science Professor Science, Dr B R A university Agra Prof. Neelu Sharma, Dept Academy Puruskar in Tabla Vadan from UP 2020 Professor of Music Sangeet Natak Academy, Lucknow Prof. Agam Kulshrestha, Member of Editorial Board of International 2020 Professor Dept. of Sanskrit Shodh Sansthan, Lucknow Dr Abhimanyu, Dept. of Assistant Invited talks at KMI Agra and Swami Samarpanan 2020 Sanskrit Professor and Vedic Shodh Sansthan, Meerut Nominated as Member of working Group for Prof. NPS Chandel, Curriculum of existing Teacher Education 2019 Professor Faculty of Education Programmes constituted with in National Council for Teacher Education (NCTE) New Delhi Ms Jyotika Kharbanda and Assistant Invited as Judge for Science Exhibition 2019 Ms Mugdha Sharma, Professor organized by Shri Ram Centennial School, Agra Faculty of Education Vidhya Vibhuti Samman for her contribution in Dr Kalpana Gupta, Assistant the field of Education by Akhil Bhartiya Sarva 2019 Faculty of Education Bhasha Sanskrit Samanvaya Samiti during Professor Andaman Sahitya Mahotsav invited speaker in National Workshop (Faculty 2020 Prof. Archana Kapoor Professor Development Programme in e-Education and its tools A step towards Digital India Invited as a special guest in two day conference on Teacher Education Journey: Local 2019 Prof. NPS Chandel Professor to Global on the occasion of the Silver Jubilee Year celebration of NCTE Invited as speaker in Indo-US workshop on Assistant 2019 Dr Sona Dixit 'Climate Resilence' organised by Dept. of Professor Chemistry, DEI View Uploaded File 2.5 - Evaluation Process and Reforms 2.5.1 - Number of days from the date of semester-end/ year- end examination till the declaration of results during the year Semester/ Last date of the last semester-Date of declaration of results of Programme Programme Code end/ year-end examination semester-end/ year- end examination Name year BA NIL 4 19/05/2020 01/06/2020 Hons. 22600000

5.4.4 - Meetings/activities organized by Alumni Association :

 Celebrated Shiksha Diwas and Annual General Meeting on 01.01.2020 - Alumni Placement Assistance Cell (APAC) for placement activities. - Civil Services Training Programme (CSTP). - Financial Contributions given to DEI for the following activities: (i) Various activities at DEI as given below: a. For new buildings. b. For students support, working with institutes having MOUs. c. For purchase of new equipments. d. For faculty / teaching support. (ii) Construction of building at Dairy Complex, Dayalbagh: a. For construction of Food and Dairy Complex, Dayalbagh. b. For construction of Value addition Lab. c. For construction of Dairy Engg. Workshop and Packaging Lab. (iii) Construction and establishment of Bamboo Centre at DEI, Dayalbagh. (iv) Computer, Furniture etc. for ICT CEC DEI, Dayalbagh. (v) Under Graduate Research Awards (UGRA).

### **CRITERION VI - GOVERNANCE, LEADERSHIP AND MANAGEMENT**

### 6.1 - Institutional Vision and Leadership

6.1.1 - Mention two practices of decentralization and participative management during the last year (maximum 500 words)

DEI practices decentralization and participative management to achieve excellence by involving faculty, staff and students in all its activities at various levels. It has a well-designed organizational structure with different bodies and committees and welldefined processes to provide leadership and manage different functions and initiate timely action, in tune with its vision and mission. A Case Study on Process of Curriculum Programme Review The process of curriculum/programme review has been established in consultation with experienced subject matter experts in developing or implementing similar educational processes. Steps in Curriculum Programme Review Process Feedback: The Institute has a multipronged strategy to review and receive feedback on each programme. The various channels that are employed are the following: • Individual class feedback by faculty • Class Committees • External Experts in End-Semester Examinations • Research Degree Committee • Departmental Board of Studies • Faculty Board of Studies • Academic Council • Alumni and Parents • Employers • Internal Quality Assurance Cell • Academic and Administrative Audit Committee • Advisory Committee on Education • Statutory Regulatory Authorities Departmental Review: The Department analyses various reports, identifies areas of improvement annually and prepares need-based proposals for the following: • Improvements in the existing syllabus: inclusion, deletion and modification • Introduction of new courses: core or elective • Introduction of new programmes • Major review and revision through a Curriculum Development Workshop Approvals: The proposals are placed before the following annually in chronological order: • Departmental Board of Studies with external experts as members • Faculty Board of Studies • Academic Council Governing Body • Approval of relevant Statutory Regulatory Authority for new programmes The Department Board of Studies is chaired by the Head of the Department. It constitutes faculty members and external experts. The Faculty Board of Studies has all Professors of the Faculty as members alongwith with external experts and is chaired by the Dean of the respective faculty. The Academic Council also comprises of all Heads of Departments, Deans, distinguished external experts from academia and industry, senior faculty by rotation and is chaired by the Director. The Governing Body comprises Deans, representatives from UGC/MHRD, Faculties, and is chaired by the Director. The Curriculum Development Workshops are normally organized every five years. Besides the faculty of the Department, distinguished subject experts are appointed by the Director in consultation with the Head of the Department and Dean of the respective faculty, related to the various specializations offered by the Department and the new programmes proposed. The recommendations are then placed before the Faculty Board of Studies, Academic Council and Governing Body for approvals. 6.1.2 - Does the institution have a Management Information System (MIS)? Yes 6.2 - Strategy Development and Deployment 6.2.1 - Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

| Strategy Type             | Details  |
|---------------------------|--|
| Curriculum<br>Development | The roles and responsibilities of various bodies are also clearly defined<br>to ensure transparency and accountability to achieve its objectives<br>through Curriculum Development: 1.Department Board of Studies (BoS)<br>2.Faculty Board of Studies 3.Academic Council 4.Standing Committee of<br>Academic Council |
| Teaching and<br>Learning  | Teaching and Learning A desirable outcome of the strategic plan is the<br>Infusion of ICT into all aspects of Education. DEI successfully<br>implemented this important aspect of the Strategic Plan through the   |

communicated through their report. These objections are examined by separate committees
 of the institute consisting of Assistant Registrar (Accounts), Internal Auditor,
 concerned Head of the Department and any other member nominated by the Director. Draft
 report is submitted to Treasurer and Director, (if necessary) for finalizing compliance
 report of the Institute. AG's audit have been completed and replies have been submitted
 to their satisfaction. It is pointed out that no serious objection/irregularity is
 outstanding. No Draft Para has ever been issued against the Institute by AG. 1.Chartered
 Accountant of the Institute conducts regular accounts audit and certifies its Annual
 Financial Statements. All Utilization Certificates to various grant giving agencies are
 also countersigned by the CA. All Financial Statements upto 2017-18 have been certified
 by the CA. 2.Work of Internal Audit of the Institute has been entrusted to the Internal
 Auditor of the Institute. This is mainly pre-audit of major receipts and payments.

BEST PRACTICE - I Title: SCIENTIFIC STUDY OF CONSCIOUSNESS Objectives of the Practice To be a global leader in the Science of Consciousness • To evolve a science of inner experience (which is repeatable and verifiable) by attempting to integrate Eastern and Western scientific approaches and philosophy by verifying inner spiritual phenomenology of consciousness through well-established scientific epistemology Context Consciousness is the final frontier of science. Since time immemorial, man has been intrigued by his own self, his awareness and his existence in the universe. These fundamental questions have provided the impetus for mankind to probe nature and acquire knowledge and understanding in a search for conclusive answers. Although there are different perspectives, these issues have acquired great significance in the 21st century because of significant scientific and technological advances in quantum physics, information processing, artificial intelligence, nano and biotechnology, advanced neuro-imaging techniques such as fMRIand PET and optogenetics, for examining and understanding neurological processes with unprecedented spatial and temporal resolution. During the past quarter century there has been an explosive multidisciplinary interest in studying consciousness from the perspectives of neuroscience, psychology, philosophy, cognitive science, artificial intelligence, molecular biology, medicine, quantum physics, and cosmology as well as neuro-aesthetics, neurotheology and experiential and contemplative approaches. The Centre for Consciousness Studies was established at DEI in 2011 to facilitate multidisciplinary research activities in this extremely challenging area. The Dayalbagh community around DEI, provides a unique opportunity for research at the interface of scientific and experiential approaches to Consciousness. The research activities at the Centre have made an impact and received international recognition. The Centre organizes research colloquia department-wise to facilitate collaborative research and organized the 20th International Conference on The Science of Consciousness (TSC) in 2013 at DEI. The Practice • DEI has introduced, PG Diploma in Theology, M.A., M.Phil. and PhD Theology programmes in the Sanskrit Department . The Centre organizes research colloquia department- wise to facilitate collaborative research and organized the 20th International Conference on The Science of Consciousness (TSC) in 2013 at DEI. • The Annual Integrated East-West Forum at TSC has been organised as an International event from 2012 to 2019 • A new International Dayalbagh Science of Consciousness Conference (DSC) series is being launched this year to provide leadership in Consciousness studies with its own unique perspective. The first DSC Conference is being organized by DEI at the University of Waterloo, Canada in Sep. 2019 . Integrating the use of neuro-scientific methods with the methods of Experiential Sciences in exploring Consciousness • Pioneering studies on various aspects of Consciousness, carried out in DEI include the following: o Quantum Teleportation Experiments in Consciousness with 15 2 channel SQUIDS o Psychometric Study of Consciousness o Spiritual-Psycho-Physical Quantum System Model of Consciousness o Spiritual System Theory Framework, etc. The Future Plan To be a global leader in Consciousness Studies, DEI will take the following initiatives: • To establish new multidisciplinary programs in Theology, Cognitive science, Neuroscience, AYUSH, etc., offered jointly by different departments, • To undertake, theoretical and experimental research in emerging niche areas of expertise, that include Neuro-aesthetics, Neuro-Linguistics , Neuro Theology, Graph Theoretic Topological Quantum Computing, Psycho-Physics, Yoga and Meditation, Neuro-phenomenology, Cognitive Neuroscience, Internet of Everything and AI SuperIntelligent machines with safety net. • To promote integration of knowledge through multidisciplinary programs. • To emphasis spiritual education, the highest form of education, to achieve the mission objective of evolving super conscious and super-intelligent human beings. BEST PRACTICE - II Title: SOCIO-ECONOMIC DEVELOPMENT through SIGMA SIX Q-Vs APPROACH Objectives Societal Contribution is the distinguishing thread running through the fabric of the educational framework of DEI. Its overall Vision can be depicted thus: It hastaken up following domains based on our Sigma Six Q-V approach to empower the adopted communities: 1) Economic Independence through Skilling to Entrepreneurship 2) Holistic Health - Physical Mental and Spiritual 3) Environmental Conservation 4) An Inclusive Egalitarian Society characterized by the Highest Quality of life 5) Womens Empowerment 6) Value-Based Quality Education for All 7) Reaching the Lowest, the Least, the Last and the Lost 8) Evolution from 'Homo Sapiens' to a community of 'Homo Spiritualis' - a Super-Conscious and Super-Connected society. The Context India is a developing country comprising a staggering diversity of cultures and communities. India has the worlds largest tribal population and it is also the most economically underprivileged. Education is the most powerful means off bringing about socio-economic development among scheduled tribes that cannot be overemphasized. The Practice To ensure a sustainable model of societal development the DEI follows the Six Sigma Q-V Approach, which has been framed by the Most Revered Chairman, Advisory Committee on Education, DEI, Prof. P. S. Satsangi. In his words: "Q stands for Quality. Quality is of six kinds which we want to develop in Dayalbagh. V stands for Values. Sigma means that all these aspects or components have interaction amongst themselves and the cumulative effect of all these is many times more than their individual effect." DEI has impressively impacted the tribal communities by enriching their social, economic and moral spiritual capital. Some salient areas include: INNOVATION • Skilling to Entrepreneurship • Self Help Groups (SHGs) with focus on women empowerment o ATMA (Apparel and Toy Making Association) o ADyNam (Agricultural and Diary Nano Processing of Multi- Products) o AAM (Automotive And Multi- skilling Garage) Under this, Vocational Training Certificate Courses such as Motor

#### 7.3 - Institutional Distinctiveness

7.3.1 - Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Implementation of an Innovative, Comprehensive and Integrated Value-based Education System Higher education has special value in the emerging knowledge society. It contributes directly as well as indirectly to the wealth of a nation. Therefore, the country's future depends on a wellstructured and implemented higher education system. The way we design our education system is decided by the way we view life. The University Education Commission 1948-49 made a number of significant recommendations on various aspects of higher education. The objectives of higher education are identified as, Wisdom and Knowledge, Aims of social order, Love for higher values in life and Training for Leadership. The National Policy on Education - 1986 viewed higher education as, "Higher education provides people with an opportunity to reflect on the critical, social, economic, cultural, moral and spiritual issues facing humanity. It contributes to national development through dissemination of specialized knowledge and skill". However, the important question that needs serious consideration is how to achieve these goals. How do we encourage our youth to look at life beyond the classroom with an indomitable spirit and an undying belief in the core values? How do we find the teachers who exhibit these core values and act as role models for the young students who are at an

impressionable age? How does one create an environment that exudes the spirit of Fatherhood of God and Brotherhood of Man and inculcates the same in the students who not only imbibe this spirit but also the capability to develop the same in others across the world? The Dayalbagh Educational Policy, formulated in 1975, and implemented in DEI since 1981 provides a comprehensive solution. It anticipated and implemented several features which later found consensus in the National Education Policy, 1986, and has been widely appreciated. It is a source of perennial inspiration and innovation which has consciously and conscientiously guided the profound dynamics of its exemplary growth in the last four decades, duly propelled by the twin objectives of Value Education and Total Quality in a double-helical pattern, with the former objective serving as the prime mover for the latter objective, so as to facilitate emergence of DEI as an exemplary institution of learning and work-experience. The Policy leads to as many as 93 elements spread over Aims and Objects (30), Educational System (33) and Organization (30). An Interpretive Structural Model (ISM) of the policy with its roots in the systems philosophy, has been shown in the attached document. The mission objective of the Institute is to evolve a well-rounded complete person and this is supported by academic values, moral and spiritual values and social sensibilities. The Policy makes broad coverage at the undergraduate level as per the following: (i) Awareness of democratic processes and Indian constitution is provided through courses on humanities, social sciences, management and entrepreneurship. (ii) The Institute core courses include full credit courses on Indian Culture, Comparative Study of Religion, General Knowledge, Scientific Methodology and Current Affairs and Work Experience Courses, Industrial Training.
