York Student Identification Number: **216725962**

Dear Mahima Chaudhary,

I am delighted to offer you admission to the Graduate Program in Electrical and Computer Engineering to begin in Fall 2019 on a Full-Time basis. York University has one of the largest and most dynamic populations of graduate students in the country, committed to generating new knowledge for the 21st century. Come be part of this dynamic group.

The Graduate Program in Electrical Engineering and Computer Science offers a research intensive, well-supported, congenial environment for a select group of graduate students. Our complement of 60 graduate faculty members provides research and graduate training expertise in Computer Engineering, Computer Science, Electrical Engineering and Software Engineering with particular strength in the areas of artificial intelligence, biomedical engineering, computer graphics, computer vision, human-centered computing, information systems, micro/nanoelectronics, networks, power and renewable energy systems, software engineering, theory of computation and virtual reality.

Our graduate trainees regularly present at major conferences, publish in top journals and are successful in winning substantial scholarships (such as NSERC and OGS). We offer competitive funding packages, attractive scholarships top ups, and competitive entrance scholarships.

Should you accept this offer, the minimum funding you will receive for a Master of Applied Science in Electrical and Computer Engineering is:
\$62,500 in 5 terms

The base of the York funding package is the York Fellowship to which is then added one or more of the following: Teaching Assistantships (TA), Graduate Assistantships (GA), Research Assistantships (RA) or other scholarships and awards. The typical components of a funding package in your program will be communicated to you by your Graduate Program Director. Your funding is contingent on accepting York's offer of admission, continuous registration as a full-time student, continued satisfactory performance according to Faculty of Graduate Studies Regulations and Program Requirements, and fulfillment of any funding-related employment conditions. Receipt of a significant external award such as an Ontario Graduate Scholarship, Ontario Trillium Scholarship, Tri-Council Scholarship or other similar award will result in an overall increase in your net funding, but with a reduction of the York Fellowship amount, because York contributes to these awards already through matching funds. If you learn that you are a recipient of one of these prestigious awards, please communicate with your Program.

I hope that you will accept our offer of admission and join the vibrant community of scholars at York.

Sincerely,

A handwritten signature in black ink, appearing to read "Dr. Loebel", with a stylized flourish at the end.

Dr. Thomas Loebel
Dean, Faculty of Graduate Studies
Associate Vice President, Graduate

Decision Summary and Important Information about Graduate Studies at York
Immigration Letter Included

Mahima Chaudhary, York Reference Number: 216725962

Summary of Your Offer of Admission

You have been offered admission to the following program(s) at York University:
Designated learning institution number: O19361109242

Session:	Fall 2019
Degree:	Master of Applied Science
Program:	Electrical and Computer Engineering
Status:	Full-Time
Country of Citizenship:	India

This offer pertains only to your circumstances (citizenship, level of study) as identified in your application and in this letter. Please notify your Program should any changes arise.

Conditions on Your Offer of Admission

- Your admission is contingent upon completion of your Honours degree with a minimum B+ average over the final two years of study. You must arrange to send a final transcript (showing final grades and all degrees conferred) to the Office of Admissions.
- Your admission is conditional upon receipt of your degree certificate confirming that your degree has been conferred. This must be received directly from the institution.
- Your admission is conditional upon receipt of all official transcripts of your academic work, forwarded directly from each institution attended.
- Please provide an Official English translation of all postsecondary transcripts from a recognized translation agency.

Confirmation of Acceptance of This Offer of Admission

Because there are limited spaces available to incoming students, therefore, please confirm your decision to accept or decline this offer by:

June 3, 2019

Failure to respond by this date may result in the offer being withdrawn. To confirm your decision, visit www.yorku.ca/myfile

Important Information About Graduate Studies at York

Where do I Begin?

If you have questions regarding your offer of admission, program requirements or would like to speak with a program representative, please contact the graduate program assistant: gradstudies.yorku.ca/program-contacts/ . Once you have decided to come to York, a number of administrative processes will help you to prepare for your graduate experience well before the start of term. Please visit this website to begin your guided journey into Grad Studies at York: gradstudies.yorku.ca/admitted

Fees and Tuition

Fees and tuition information is available at the following link: sfs.yorku.ca/fees/courses . Your funding will be indexed for increases in tuition, if any, while you are a full-time student and successfully meet program requirements for the duration of your funding package.

Ontario Student Assistance Program (OSAP)

Please note that graduate students can apply for Ontario Student Assistance Program (OSAP). You are required to report the value of the funding package on your OSAP application as income. When you apply for OSAP, you are automatically considered for both grants and loans. Loans can be declined if they are not wanted. For more information, please visit: gradstudies.yorku.ca/current-students/student-finances/osap .

York University Health Care Graduate Bursary

Graduate students who receive a York Fellowship as part of their graduate funding, and do not have an alternative plan, are provided with a \$1,000 York University Health Care Graduate Bursary accessed through their student account, to be used for extended health care. Currently, these graduate students are required to enroll in the health care plan managed by the York University Graduate Students' Association (YUGSA). This health care plan costs \$400 - the charge shows up as "GSA Health Care" in the student account in October. In order to opt out, students are required to demonstrate that they have comparable health and dental coverage in addition to OHIP and UHIP. Students can de-enrol in the YUGSA health care plan by visiting <http://yugsa.ca/services/health-plan/> . All graduate students at York are members of YUGSA (yugsa.ca), an umbrella organization with satellites in most programs.
