The program started with the inaugural session with presenting memento to *Prof. B.L. Dubey* the resource person. *Professor C. Patvardhan*, Director, DEI was the Chief Guest, *Prof Anand Mohan*, Registrar, DEI presided over the program and *Mrs. Sneh Bijlani*, Treasurer, DEI was the Guest of Honour for the Session.

Inaugural session of R&SibT, 12th April, 2025

Presentation of the Memento to the Resource Person Prof. B.L. Dubey

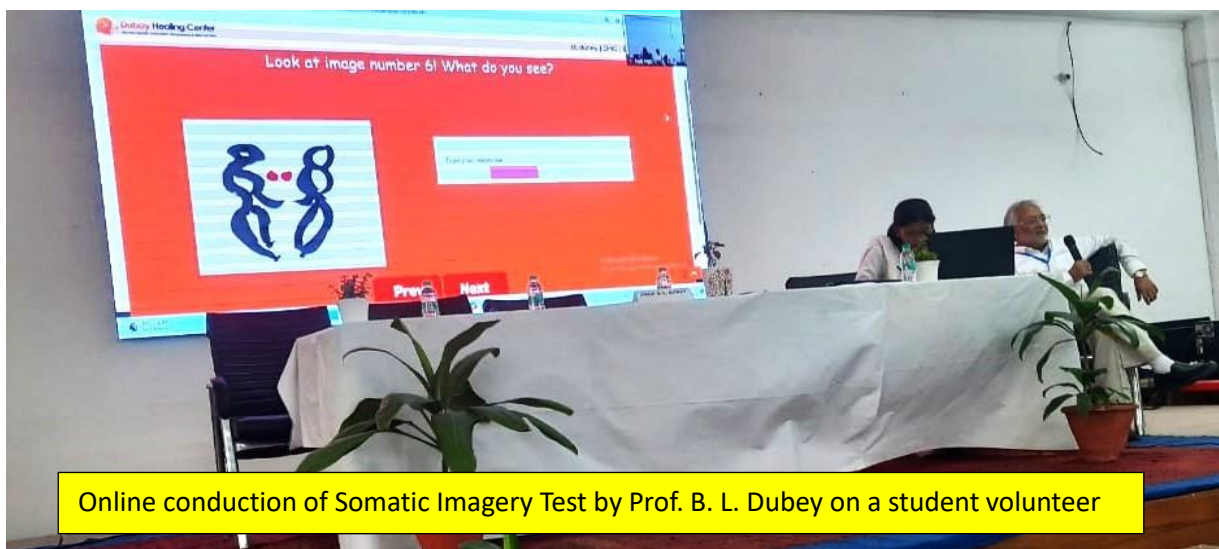

Prof. Anand Mohan addressing the audience at the Inaugural Session R7SibT, 2025

The objectives of the workshop were: (1) To enable the students studying Psychology and Cognitive Science as their major course as well as research scholars, practitioners and educators gain an understanding of projective techniques and their applications. (2) To give clarity of information and gain experience for the conduction of psychological testing of projective technique online, specifically Somatic Imagery test(SIT) that is an online version of conduction of a projective technique and interpretation of responses even using AI programming as an option. (3) Learning to interpret the responses and assess the personality of individuals accordingly. (4) To make the students aware of the use and application of SIT in counselling and other fields like in Organisations for employees, Career counselling, Family Counselling, Relationship issues in marriage counselling etc. for all across different age groups. Fifty-one participants (mainly students) participated in offline mode and fourteen participants were present online.

Some of the Participants of R&SibT, 2025

After the inaugural session the next session started with an introduction of projective techniques including Rorschach Inkblot test and demonstration of the conduction of SIT was done for the audience with one of the student volunteering to be the subject for taking the test online. A comparative analysis of different projective tests was also presented with regards to the scoring of responses and ease in administering the test, for a deeper insight.

Online conduction of Somatic Imagery Test by Prof. B. L. Dubey on a student volunteer

Prof. B.L. Dubey had an interactive session with the students and answered the queries of the students regarding practice effects of the test and the type of expertise required in interpreting the results. The questions regarding the application of the test worldwide were also aptly dealt during the session by the resource person. Both the academic sessions of the workshop were reported interesting and highly appreciated by the students as per their feedback given after the completion of the sessions in the evening. The workshop concluded with a vote of thanks to Prof. Dubey, participants and the organising team.
