

Visit of Director, RFRA Centre, Lucknow to CART

The Centre for Applied Rural Technology (CART) has recently started one year certificate programme on Mushroom Technology with the help of Agriculture Science /Botany Department, Faculty of Science. Sterilization Lab., Mushroom Technology Lab, Cold rooms for Mushroom Production has been established in CART to give practical experience to the students.

Dr. S.K. Chauhan, Director, Regional Food Research and Analysis Centre, Lucknow, UP, with his team visited the Mushroom Technology Laboratories on 26th August 2024. He applauded the efforts in promoting the production of mushroom. He was happy to note about the approval of NABARD project to train the villagers producing the mushrooms utilizing the space in their agriculture fields using the local resources. Some valuable suggestions were given to enhance the working and production of different varieties of mushrooms.

Dr. Vijay Kumar Dalal, Coordinator, Mushroom Technology Programme, CART; explaining the visitor
