TO EVOLVE A COMPLETE MAN

“It is not a big University or big building or larger number of teachers or larger number of departments which raises the status of a University. It is the quality of the work that makes a University great.”

Revered Professor M.B. Lal Sahab
Founder Director, Dayalbagh Educational Institute

Dayalbagh Educational Institute

The Government of India conferred the status of a Deemed University on Dayalbagh Educational Institute (DEI), Dayalbagh, Agra under Section 3 of the University Grants Commission Act by notification No.F9-3/78-U-3 dated 16th May, 1981. The Institute is located in Dayalbagh, a self-contained colony renowned for its serene environment and secular establishments, in which its inhabitants lead an active, disciplined and co-operative community life, conforming to the high spiritual ideals of their faith.

Education System & Mission Objectives

Since its inception in 1981, the University has successfully implemented an innovative, comprehensive and value based education system with the mission objective of evolving a complete man (a well-rounded total quality person). The education system fosters academic excellence along with holistic development and aims to bring about the physical, intellectual, emotional and ethical integration of the individual.

In pursuance of its mission objective of evolving a ‘complete man’, DEI’s curriculum includes core courses and co-curricular activities which encourage the well-rounded development of the individual. These include the following: Cultural Education; Comparative Study of Religion; Scientific Methodology, General Knowledge and Current Affairs; Rural Development; Agricultural Operations; Social Service; and Co-Curricular Activities (cultural and literary activities, games and sports). It also includes work based programmes that takes the form of practical training in areas related to the major subjects.

The distinguishing feature of DEI’s education policy is its emphasis on combining excellence with relevance to contemporary needs. Recently, a high power committee set up by the Ministry of Human Resource Development ranked DEI 8th amongst 126 deemed universities in India.

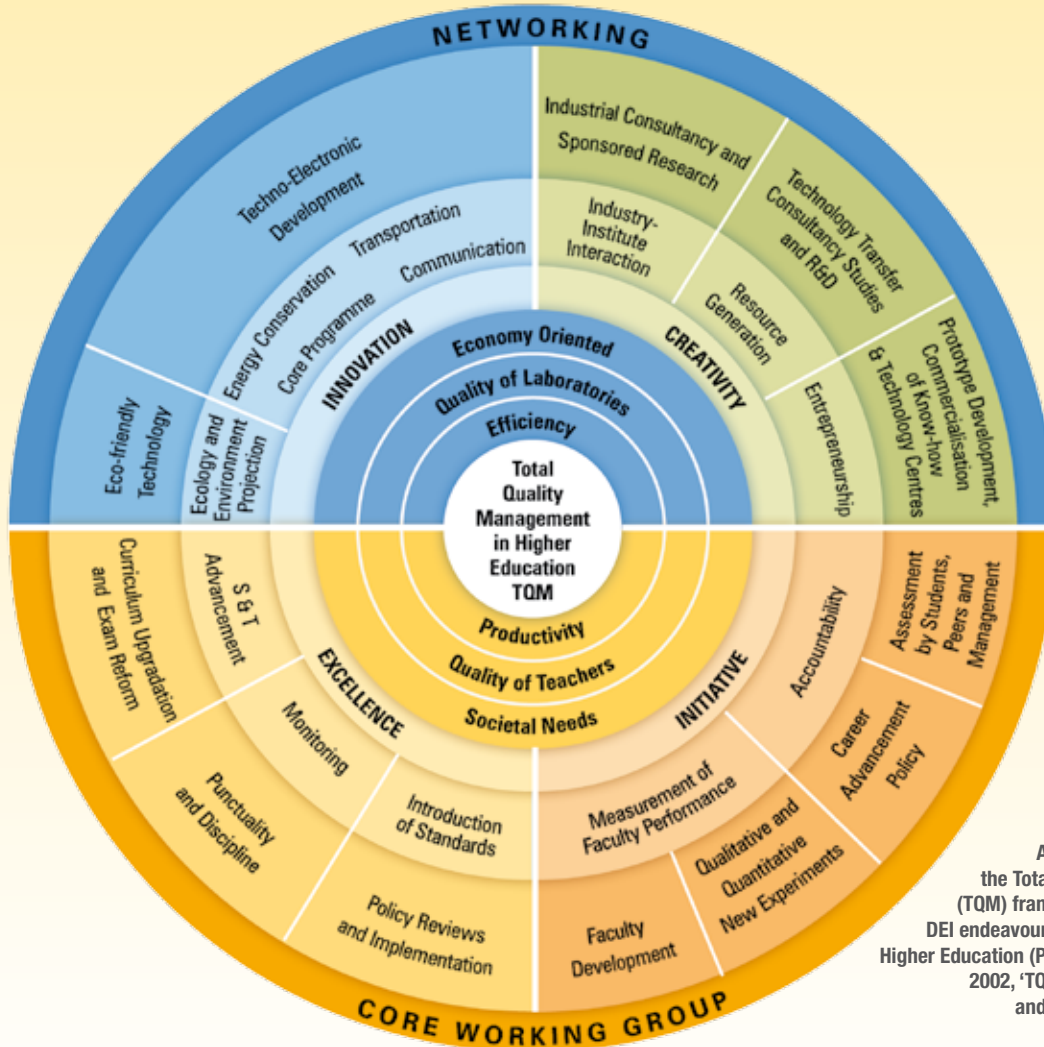

Focus on Quality

Using the medium of an innovative, comprehensive and flexible education policy, DEI attempts to chisel out the total quality person through a persistent focus on imparting quality education. In its pursuit of quality education, DEI has instituted an Internal Quality Assurance Cell (IQAC) based on the specific

guidelines of the National Assessment and Accreditation Council, an autonomous body set up by the UGC.

The activities of the IQAC envelop the University central administrative structure, University departments and every component of the University system.

A conceptual model for the Total Quality Management (TQM) framework through which DEI endeavours to achieve quality in Higher Education (Professor P.S. Satsangi, 2002, 'TQM in Higher Education and Technical Education')

Programmes

The Dayalbagh Educational Institute comprises six faculties (Arts, Commerce, Education, Engineering, Science and Social Sciences), twenty two departments, and three non-university colleges – DEI Technical College, DEI Prem Vidyalaya Girls Intermediate College and REI Intermediate College. DEI also manages, both academically and administratively, schools in Madhya Pradesh, New Delhi and Roorkee. This has enabled the creation of an integrated education system from K-12 through UG, PG and PhD.

The University offers around 75 programmes at Certificate, Diploma, UG Degree, PG Diploma, PG Degree and Research Degree levels. The faculty strength is 243 while the student strength

is 4223 at the University level.

The DEI model of education provides multiple entry and exit points enabling a student to move from the vocational to the academic stream and vice-versa, on clearing requisite tests. It integrates seamlessly with the AICTE National Vocational Education Qualification Framework (NVEQF). Recognizing this, AICTE has selected DEI as the first Institute under the NVEQF. DEI Technical College, DEI Prem Vidyalaya Girls Intermediate College and REI Intermediate College are registered as Vocational Educational Providers and DEI Centre for Applied Rural Technology is registered as Skill Knowledge Provider.

e-DEI-de

Under the e-DEI-de (not for profit) initiative, courses will be made available online in a modular format leading to the completion of certificate, diploma and degree programmes. The proposed modular courses will be administered in an online mentored format involving standard Web based delivery components as well as online consultation and discussion through audio and video conferencing. The e-DEI-de initiative has been integrated into the DEI 2031 Strategic plan.

Distance Education Programme

The Distance Education programme of DEI was launched in 2004 to extend the benefits of its high quality, innovative, and value based education system to all sections of society via distance mode and in particular, to the weaker sections and women in remote, backward and tribal areas in various parts of the country for their empowerment and economic development. Towards fulfillment of this objective, a number of employment-oriented vocational programmes are offered with nominal fees. In addition to these, higher level programmes are also offered which are helping students from backward and tribal areas to join the mainstream. The Distance Education Council (IGNOU) has given recognition to the Distance Education Programme of DEI. On the recommendation of the Joint Committee of UGC-AICTE-DEC, approval has been accorded to a number of programmes for being conducted in distance mode.

The distance education programmes are offered in 85 Study Centres in India and 6 abroad. The programmes are backed by laboratories, workshops and state-of-the-art communication technology including EDUSAT satellite-interactive terminals which provide two-way interaction between the University and its Study Centres. Some of the programmes are taught via the synchronous on-line mode, some are web-based, while others are in the blended education mode with a mix of traditional instruction and e-education.

It is noteworthy that students of the distance education programme are treated at par with conventional mode students with respect to entitlement for awards, Institute medals, admission via lateral entry from Certificate to Diploma programmes etc.

Programmes Currently Offered in Distance Mode

1. Certificate Programmes

- ▶ Modern Office Management & Secretarial Practice
- ▶ Textile Designing & Printing
- ▶ Textile Technology
- ▶ Dress Designing & Tailoring
- ▶ Motor Vehicle Mechanic (4-wheeler)
- ▶ Wireman
- ▶ Electrician
- ▶ Office Assistant-cum-Computer Operator
- ▶ Cutting & Sewing

2. Certificate Programmes in Dual Mode

- ▶ Cutting & Sewing and Dress Designing & Tailoring
- ▶ Office Assistant-cum-Computer Operator and Modern Office Management & Secretarial Practice

3. Modular Courses

- 10 Weeks modular courses on
 - ▶ Block Printing
 - ▶ Screen Printing

- ▶ Tie & Dye
- ▶ Painting
- ▶ Welding
- ▶ Basic Electronics & Repair of Appliances
- ▶ Basics of Sewing
- ▶ Children's Garments
- ▶ Hand Embroidery

4. Under Graduate Degree

- ▶ B.Com (Hons)
- ▶ BBM (Hons)

5. Post Graduate Diploma

- ▶ Theology
- ▶ Journalism & Mass Communication
- ▶ Computer Science & Applications

6. Post Graduate Degree

- ▶ MBA

The Institute has upgraded four Study Centres, where it now offers in synchronous mode, diploma, degree and higher level programmes to students admitted to DEI with flexibility of attending classes at multiple locations through state-of-the-art information communication technology (ICT). These DEI-ICT Distance Education Centres are located at:

1. Melathirukenkatanathapuram (MTV Puram), Tamil Nadu (a remote rural and backward area)
2. Rajaborari-Timarni (Harda District, MP, a tribal area)
3. Soami Nagar, New Delhi (near IIT Delhi)
4. Bangalore

The DEI Product STUDENTS

The education system at DEI enables the students to imbibe basic human values, sound ethical and moral principles, a spirit of tolerance and respect for all religious faiths and beliefs. It inculcates dignity of labour, discipline, hard work, selfless service, self-reliance, integrity, honesty, sincerity, cooperation, humility and the spirit of brotherhood.

The education system also helps nurture a scientific temper and enhance awareness of contemporary developments in the fast changing world of technological advancements. It fosters the development of a complete person who is well-equipped to meet social and environmental challenges.

DEI's innovative methods of teaching, continuous assessment and emphasis on total quality management provide the students with a solid academic foundation. This, along with an enriched value based education system stands them in good stead throughout their lives. Moreover, the ideal location of the Institute in the tranquil environs of Dayalbagh, keeps the students close to nature as a result of which they display high emotional and spiritual quotients that are much sought after by recruiters.

Placement

On-Campus placement of Engineering and Management graduates, students of Diploma and other branches of Science, Arts, Commerce and Education has been excellent in the last few years due to the efforts of the Placement Officers and the DEI-Alumni Placement Assistance Cell. Our students have been recruited by some of the best names in the industry:

- ▶ Airtel
- ▶ American Express Bank
- ▶ Freescale Semiconductors
- ▶ GE Capital
- ▶ Larsen & Toubro
- ▶ Schlumberger
- ▶ SRF
- ▶ Tata Motors
- ▶ TCS
- ...and many others

A survey of our top recruiters has indicated that graduates of DEI are preferred not only because of their academic merit but also for their 'Values', which they inculcate during their studies at DEI.

Interaction with Industry

The Institute understands the need to constantly interact with the industry to take feedback on relevant requirements. This is facilitated through two direct mediums: Industry-Institute Partnership Cell (IIPC) and The Association of Alumni of Dayalbagh Educational Institutions (AADEIs).

Industry-Institute Partnership Cell

The IIP Cell, which was established in 2002, has made noteworthy progress in furthering the cause of industry-institute collaboration

- ▶ The Cell helps in providing consultancy and testing facilities to different industrial houses
- ▶ The Cell also coordinates activities relating to entrepreneurship development
- ▶ It helps in organizing short-term courses, seminars & lectures by eminent industry persons

Collaborations

Towards its vision of excellence in education, the Dayalbagh Educational Institute has signed Memoranda of Understanding for research and teaching collaboration with prestigious institutes such as University of Maryland, College Park, USA; Michigan State University, University of Missouri, USA; University of Waterloo, Canada; Indian Institute of Technology, New Delhi; Tata Institute of Fundamental Research, Mumbai; International Centre for Genetic Engineering & Biotechnology, New Delhi & and Indian Institute of Management, Bangalore.

Vision 2031

The Dayalbagh Educational Institute which has successfully achieved the objectives of its VISION 2011 programme, has embarked upon an ambitious two decade programme, VISION 2031. Keeping in line with the original philosophy of value based education, VISION 2031 envisions making DEI a top teaching and research Institute, leading others with its exemplary system of education.

The Association of Alumni of Dayalbagh Educational Institutions

In the year 2006, the Alumni of the Institute formed the Association of Alumni of Dayalbagh Educational Institutions (AADEIs) to help the Institute achieve its goals. Its important contributions include:

- ▶ Placement through the DEI-Alumni Placement Assistance Cell (DEI-APAC)
- ▶ Conducting student mentor programmes for guidance in projects and training
- ▶ Offering short courses on Soft Skills and Computer Skills

- ▶ Arranging guest lectures and domain specific short courses
- ▶ Organizing Training & Development Workshops on special topics (Time Management, Interview Skills etc.)
- ▶ Conferring Undergraduate student awards for research projects
- ▶ Establishing ICT (Information Communication Technology) enabled Distance Education Centres in Dayalbagh, New Delhi and Bangalore
- ▶ Creating Chairs of Excellence in various departments
