

Reply to the letter of protest from a section of students

Your request for admission in the course where you had applied was a matter to be discussed in the appropriate Competent Body which, does not happen across the counter. Your request is under consideration for a suitable disposal. However, this matter becomes secondary and primarily you have been found guilty of violating the serious norm of Social Distancing and use of mask which is a must as per the Govt. Advisory in view of the COVID-19 pandemic. The video that you all are circulating in social media is your self-created evidence in which you yourself are saying that you are attending online classes and our people are found to be extending advice that you should not gather here but correspond only through email.

By gathering in our campus and violating all norms of Social Distancing, and use of mask you have exposed yourself as well as our Sectional heads for which you shall be held responsible and in case anyone is found infected you will have to bear the cost of treatment. In view of this, you are required to submit a medical certificate of COVID Test from a recognized competent medical authority. Not only this, since it was a serious violation, we will also have to report this matter to the Government bodies.

You may further note that your admission shall hold good subject to an undertaking stating you shall never in future repeat such an act else you would be subjected to the strict disciplinary norms of the Institute.
