

NOTICE

The University Sustainable Innovation Centre (USIC) and the Faculty of Social Sciences jointly offer an integrated course in **PG Diploma in Waste Management & Social Entrepreneurship (WM & SE) integrated with MBA (WM & SE)** for the academic year 2021-2022.

Course Structure:

PG Diploma in Waste Management and Social Entrepreneurship consists of four modules:

- The first three modules are common (as with the other MBA specialized programs).
- The modules include core subjects and Dissertation Projects.
- The last (Fourth) module consists of two elective theory subjects from a list of courses offered to students. It also includes a paper on Research Methodology and a Dissertation Project (execution).

For Integration with MBA:

- After completion of above four modules, if the student qualifies **for MBA (WM & SE)** as per the eligibility criteria and desires to continue he will have to complete four more modules where, the fifth and sixth modules are an internship-based program in villages along with one core subject in each module. In the last two modules (seventh & eighth), student choose subjects from an open basket of specialized courses like Business Models in Waste Management, Fundamentals and Applications of Waste Management, Food processing and waste management, digital manufacturing, etc. Along with this they also work on dissertation projects.

Eligibility Criteria:

- The DEI students having minimum threshold limit of CGPA in PGD (WM & SE) qualify for MBA (WM & SE) can continue with next four modules (module five to module eight).

- The course is open mainly for students who have successfully completed three-year B.Voc. programme from DEI. Students who have successfully completed B.Tech. programme from DEI may also apply. But their case shall be considered only in the condition of availability of seats.

Admission Process:

- Academic merit of students in B.Voc/B.Tech. (subject to a minimum threshold CGPA).
- Grades obtained in the project report submitted by the students (Project Proposal on waste management, 500 words). The report should be original with a self-declaration certificate stating the same.
- Group discussion and Personal Interview.
