

BOOK CHAPTERS

S.No.	Chapter Title	Author (s)	Publisher	Year
1	Recent advances in Bioremediation of wastewater for sustainable energy products	Dolly Kumari and Radhika Singh	Taylor and Francis	2019
2	Plastic pollution and its remedies : An Indian Scenario	Khursheed Ahmad Wani, Lutfah Ariana and S.M. Zuber	AEEGT Book series	2019
3	Adsorption studies of the sugar amino acids onto aluminium treated corn cobs powder (A1-CCP)	Ateeque Ahmad, Syed Kansar Shamim and Nikhat Bano	A.K. Publications	2019
4	PAH in gas and particulate phases: Measurement and control	K. Maharaj Kumari and Anita Lakhani	Springer	2018
5	Environmental chemistry - Persistent organic pollutants	Anita Lakhani	EPG Pathshala	2018
6	Environmental chemistry - Carcinogens in air	Anita Lakhani	EPG Pathshala	2018
7	Environmental chemistry - Sampling of aerosol,air and water	K. Maharaj Kumari and Anita Lakhani	EPG Pathshala	2018
8	Environmental chemistry - Pesticides	K. Maharaj Kumari	EPG Pathshala	2018
9	Environmental chemistry - Introductory organic chemistry	K.Maharaj Kumari	EPG Pathshala	2018
10	Air pollution Control policies and Regulation	Ranjit Kumar and Pratima Gupta	Springer	2016
11	PAH Contamination of urban soils and Phytoremediation	Abid A Ansari, Sarvajeet Singh Gill, Ritu gill, Guy R Ianza, Lee Newman	Springer	2015
12	Ultrasound-assisted adsorption of reactive blue 21 dye on TiO ₂ in the presence of some rare earths (La,Ce,Pr and Gd)	Pankaj Srivastava, Shikha goyal and Rajesh Tayade	Wiley	2013
