do hereby appreciate

Anita Lakhani

in the field of Environment and Ecology.

In testimony whereof and by the authority vested in us, we do confer the

ENVIRONMENTALIST OF THE YEAR AWARD 2014

on the occasion of International Conference on
Environment and Ecology held on 2nd March, 2015 at Kolkata, India

This award has been instituted for a selected few accomplished persons enabling them to guide the human race living in a historic transitional period of burgeoning awareness of the conflict between human activities and environmental constraints, preparing to venture into a new millennium and to finally help save the fragile and endangered planet with the natural resources already overtaxed. The recipient of this award will also help in developing a neological and neocratic approach to environmental education for reducing the toll that the World citizenary exact in supporting daily life and the evergrowing problems and exerting profound pressures on the Mother Earth.
